CAREER OBJECTIVE

Graphic Designer with specialization in branding, UI/UX, illustration, animation and multimedia marketing. Seeking to gain more hands-on experience in the industry. Punctual, detailed-oriented, team-player, and a passionate, driven creator who can play a vital role in any artistic establishment.

EXPERIENCE

Graphic Design Intern

Suny Old Westbury

As a graphic designer for the department of Arts and Science, I was in charge of creating infographics, brochures, and posters advertising upcoming college events and services. I came up with different ways to improve and attract students to make use of the programs and services the college provided. I rebranded the food pantry logo and service, in order to encourage students to use their benefits. I was also in charge of designing T-shirts and ads for the annual college summit. I liaised between the different departments within the campus to increase workflow and meet deadlines, and I drafted detailed reports for the head of the Arts and Science department.

Employment Specialist

Tiegerman Community Services

2018-2021

As an Employment Specialist, I was responsible for teaching adults with disabilities life skills, as well as coping mechanisms for dealing with stressful situations in the workplace. It was my responsibility to create a safe, respectful and fair environment for each client. I managed each individual's time in order to meet deadlines and expectations set by their employer and kept detailed records that served as a journal to keep track of their progress and the areas in which they needed to improve. Moreover, I was responsible for transporting individuals that lacked the knowledge or means of transportation to their worksite which allowed me to develop a keen sense of punctuality, detail, and professionalism.
